About **Brice Environmental Services Corporation**

Brice Environmental Services Corporation is a self-performing, Alaska Native Regional Corporation (ANC) 8(a) Small Business. As a proud Calista Corporation subsidiary, we have built strong relationships of trust and credibility. We are privileged to share our expertise and reach-back capabilities with public and private sector clients with our full suite of construction, environmental, marine and rental equipment services. Applying innovative, creative, and value-based approaches is integral to every project we execute.

We are leaders in performing logistically complex projects in rural and remote locations throughout the world. We have a proven track record in completing projects to full customer satisfaction as a result of our strong work ethic, safety record, and commitment to outstanding client service.

Services

Brice Environmental Services Corporation is primarily a self-performing vertically integrated remediation firm specializing in delivering services in remote austere and complex environments. We are differentiated by adroit logistics management, planning, and execution. Our full-service capabilities are individually customized to meet each client's specific program or project requirements. We deliver individual services or fully integrated solutions to safely and successfully meet our client's objectives.

CONSTRUCTION

Brice has 50 years of expertise and experience in safely managing the construction of projects to scope, quality, schedule, and cost. We have the staffing capability to mobilize experienced construction managers, inspectors, resident engineers, and labor anywhere in the world a client has a requirement. Brice has a suite of construction management services including construction administration, construction inspection, constructability reviews, project controls, document management, scheduling, cost estimating and cost control, change order management, claims management and resolution, quality assurance, and project close-out. **NOTABLE PROJECTS:** Point Lay Airport Expansion (\$11.5M); Kotzebue Airport and Safety Apron Improvements (\$30M); Kalskag Airport Improvements (\$2.5M); Red Dog Mine Airport Improvements (\$2.7M); ARRC Curry Quarry Ballast and Riprap Production (\$8.1M); Missile Defense System (\$22.8M).

ENVIRONMENTAL

Environmental management and planning is an expertise of Brice. We offer a full range of environmental engineering, consulting and construction services including site investigations, feasibility studies, remediation, contaminated sediment services, and munitions response programs. We have a relentless focus on our client's mission objectives by developing strategies that integrate innovation and value based approaches, regulatory, technical, financial, project delivery, quality controls, and risk management solutions resulting in cost-effective investigation, design, construction, and operation. **NOTABLE PROJECTS:** Eielson Farm Road AAA FUDS Contaminated Soil Removal (\$5.9M); Demolition, Debris Removal, CERCLA Cleanup, Landfill Construction (\$5M); and Excavation and Backfill of the Former Galena Forward Operation Location (\$1.9M); Oliktok LRRS Demolition and Environmental Remediation (\$4.2M).

MUNITIONS

Brice has been at the forefront of management of training range soils impacted with ordinance, heavy metals, and explosive residues. Since 1997, we have evaluated, designed and implemented soil processing systems at DoD ranges at over 30 locations nationwide. **NOTABLE ACCOMPLISHMENTS:** Brice was the first firm to design and implement an advanced hybrid approach to soil washing to remove small arms rounds from over 20,000 tons of rifle and pistol range soils at Former Fort Ruger, Hawaii saving the government more than \$700,000 as opposed to traditional soil washing. This process also earned two Army Environmental Awards, one at Fort Ruger, and one at Camp Withycomb, Oregon.

MARINE

Brice maintains a Marine Division specifically designed to service remote Alaska locations and the PacRim region. Our marine services offer a full spectrum of construction and environmental services with the ability to transport equipment, materials, and supplies to the most remote project sites with specialized vessels that access the most challenging navigable waters in and around Alaska. **CAPABILITIES and VESSELS:** All Oceans Articulated Tug and Barge (ATB); Shallow Draft Articulated Tug and Barge (ATB); Shallow Draft Tug; Shallow Draft Barge; Truck-able Special Use Shallow Draft Tug and Barge; and the Articulated Tug and Barge Freight Concept that allows the vessel set to enjoy the capabilities of a landing craft while maintaining status as a tug and barge.

EQUIPMENT

Brice Equipment maintains a large fleet of heavy equipment and vehicles with associated operations and factory trained technicians and maintenance capabilities with parts and supplies in Fairbanks, Deadhorse, and Soldotna, Alaska. We can cost efficiently provide the equipment needed for access improvement and enhancement, especially when local providers are not available. **EQUIPMENT:** air compressors; light towers; generators; light/heavy duty trucks; trailers (office, break, smoking); bathrooms; forklifts; aerial work platforms; wheel loaders; skid steer loaders; truck mounted cranes; heavy trailers; excavators; motor graders; cranes; etc.

Statement of QUALIFICATIONS

WHAT OUR CLIENTS ARE SAYING...

"Given what I know today about the Contractor's ability to execute what they promised in their proposal, I definitely would award to them today given that I had a choice."

~Ronald S. Broyles, Environmental Engineer, USACE

"The leadership at Brice and lead crew personnel were a pleasure to work with. Very good at logistically challenged projects. Insightful on ways to improve a project's execution. I look forward to working with them again, and they come to mind first when I consider any opportunity."

~Bryan Zachmeier, Pacific Program Manager, AMEC

SAFETY is our #1 Priority
